CALL INTERCEPTION COUNTERMEASURES

CHECKLIST

NETWORK & TELECOM

MOBILE PHONE / LOCAL DEVICE

HUMAN INTEL & FABRICATION

ALWAYS

- [ ] 1. Use a separate clean smartphone for sensitive calls.
- [ ] 2. Lockdown Mode on iPhone or Advanced Protection on Android.
- [ ] 3. Use Signal for calls, verify safety numbers before sensitive conversations.
- [ ] 4. No linked devices and no Bluetooth on the secure-call profile.
- [ ] 5. For the highest-stakes topics, don't call at all: meet in person in a controlled room, ideally one that has been professionally checked.

BEFORE THE CALL

- [ ] 1.Enable Lockdown Mode, minimal apps, wired headset.
- [ ] 2.Connect via personal mobile hotspot + VPN. Not venue Wi-Fi.
- [ ] 3.Take the call in a controlled room. Acoustic maskers active.
- [ ] 4.No speakerphone. No unnecessary electronics.
- [ ] 5.Clear the room of unnecessary personnel

DURING THE CALL

- [ ] 1.Signal voice call. Verify the safety number. Confirm E2EE lock icon.
- [ ] 2.Wired headset. No speakerphone, no Bluetooth.

AFTER THE CALL

- [ ] 1.Limit debriefing to the minimum necessary circle.
- [ ] 2.Periodic device forensics. Monthly MVT/iVerify scan.
- [ ] 3.Replace the device, as needs require and budgets allow.
- [ ] 4.Monitor for leaks and maintain rapid-response forensic capability.
